

**LETTER FROM SEN. TED STEVENS (R AK) DATED 30 SEPTEMBER, 1981 RE PLANNED
OFFICE OF TECHNOLOGY ASSESSMENT CLASSIFIED STUDY [REDACTED]**

STAT

- o Letter to DCI advised of planned study, requested "appropriate....codeword clearances, both general and those dealing with intelligence-gathering systems which may be directly relevant to the [REDACTED] mission".

STAT

- o Legislative Liaison Branch transferred action to IC Staff because of community implications.

- o Per DDCI direction, ICS has prepared a response to Sen. Stevens, offering cooperation, authorizing SCI access at the SI/TK level for four staffers, and suggesting that Department of Defense be sent the same information that DCI received, as study seems to be primarily related to DoD areas of responsibility. *<attached>*

- o Informal ICS-DoD staff liaison (OCC to DUSD-P) ascertained that Defense has not been formally advised by OTA that study is contemplated. It is most likely that DUSD(P) is responsible for suggesting this topic for the DDCI/DepSecDef 23 October *luncheon breakfast*

Admiral Inman -

This is latest from [REDACTED] on the proposed [REDACTED] study.
